

-- Mission Statement --

Together, We Aspire, Act, and Achieve.

-- Vision -

*Creating servant leaders through quality
academic and activity programs.*

-- Philosophy --

The philosophy of the Beresford School District is to provide a positive environment in which all children can and will succeed.

Our children are the reason for our school's existence, and worthy of our best efforts.

Therefore, we believe...

1. It is essential to provide all students academic, physical, social, and emotional assistance and support.
2. It is essential to provide a safe environment for all stakeholders.
3. It is essential that our families and community are important educational resources in character development of our youth through positive role modeling.
4. It is essential to promote lifelong learning for all.
5. It is essential to provide educational opportunities and experiences for students to develop toward responsible citizenship, including roles of leadership and group participation.
